Ambulatory Surgery Center

About the Ambulatory Surgery Center

UT Health Austin's Ambulatory Surgery Center (ASC) provides patients ages 10 and older and their physicians a convenient and safe alternative for outpatient procedures. Fully equipped with the latest technology and IT integration, the ASC is staffed to provide same-day surgical care. Inside, you will find four operating suites and one procedure room, along with state-of-the-art preoperative and post-anesthesia areas. The ASC also features 13 private, 120-square-foot recovery rooms, allowing patients to recuperate in the comfort of their own space. If needed, advanced imaging and diagnostic technologies are also available in the adjacent Health Discovery Building.
